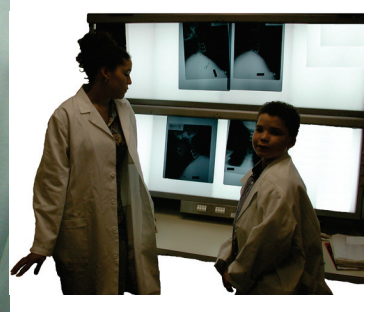
THE INCREDIBLE MEDICAL SCHOOL™



Our classes and camps are the most amazing, informative, educational, and just plain fun activities available to the medically interested general public. Classes are provided for all age groups. We have classes in physiology, anatomy, and common diseases as well as medical procedure skills. Only in actual medical school can you learn some of the procedures we teach. Our week long camps include an enormous variety of information and skills.

Some of the medical procedure skills we teach using highly accurate anatomical models are:

- **Nasogastric tube** (insertion of tube thru nose into stomach)
- **Foley catheter** (insertion of tube into the bladder)
- **Thoracentesis** (needle insertion to remove fluid from the lungs)
- **Endoscopy** (using a camera to look into the stomach and intestines)
- **Auscultation** (listening to the sounds of the heart, lungs, and bowels)
- **Vital Signs** (blood pressure, pulse, respirations, & temperature)
- **Using an otoscope** (ear exam)
- **Gastric lavage** (washing out the stomach)
- **Chest tube** (insertion for a collapsed lung)
- **Suturing lacerations** (sewing cuts)
- **Intubation** (inserting a breathing tube into the lungs)
- **Defibrillation** (shocking the heart)
- **Intravenous (IV) catheter insertion**
- **Using an opthalmoscope** (eye exam)
- **Drawing blood for lab tests**
- **Arterial Blood Gases**
- **Delivering babies**
- **Applying casts and splints**
- **Blood oxygen measurement**
- **X-Ray reading**
- **Basic EKG reading**
- **CardioPulmonary Resuscitation**
